

WELD SHIELD BK

Welding Helmet with Flip-up lens

Standards:

EN175, UKCA, ANSI Z87.1, Z94.3 (Canadian Standard)

Features

Welding Helmet With Flip-up lens.

Material: PP

Color: Black

Type: Worn on the head

Lens holder: Flip Up

Lens size: 4 1/4" x 2" (108 x 51mm)

Impact resistance

Includes front and side impact resistance.

Resistance to ignition and hot penetration

According to the testing method of the European standard,

heat one end of a steel rod, 300 mm long and 6 mm

nominal diameter to 650 °C. Press the heated face

of the rod against the surface of the sample for 5 seconds.

The welding helmet must not ignite, continue to glow

nor be pierced.

Electrical insulation

The welding helmets provides excellent electrical insulation.

Light reflectance

All inside surfaces of the welding helmet have a matt finish.

Light attenuation

The welding helmet shell can block harmful light during

the welding process, and no unattenuated light is visible

in any position of the welding helmet.

Quick and easy lens replacement

Due to the patented design, filter lenses and cover lenses can

be installed and removed easily and quickly.

Packing:

1Pc/OPP, 30Pcs/Carton

Carton Dimension:

50 x 46 x 54 cms

Carton Weight:

Gross Weight: 15.50kgs/carton

Net Weight: 14.50kgs/carton

Volume:

0.0124 carton

Origin:

China

Application:

Workshops, Engineering, Maintenance & Repair
